The Annual Percentage Yield assumes that dividends are added to principal. Rates are subject to change without notice.

### Account Terms—Non-Certificate of Deposit Accounts

**VARIABLE RATE**—Accounts are variable rate, subject to change without notice as determined by the Board of Directors.

**DIVIDEND CALCULATION**—Dividends are calculated using the Daily Balance Method, which applies a daily periodic rate to the principal in the account each day.

**DIVIDEND ACCRUAL**—Dividends begin to accrue on the business day you make the deposit to the account.

**CLOSING THE ACCOUNT**—Dividends will be paid up until the time the account is closed.

**COMPOUNDING AND CREDITING**—Dividends will be compounded and credited monthly, on the last day of the month. Dividends are paid from current income and available earnings after required transfers are made at the end of the dividend period.

**ACCOUNT LIMITATIONS**—No account limitations are applicable to savings and checking accounts, with the exception of money market accounts.

**MONEY MARKET ACCOUNTS**—There is a \$500 minimum withdrawal by check. A \$20 Check Withdrawal Fee will be imposed for checks written for amounts less than \$500. You must maintain an average daily balance of \$2,500 to earn dividends.

<sup>1</sup>Account terms for Certificate of Deposit accounts are listed on the attached flap.

<sup>2</sup>My Advantage<sup>SM</sup> members receive an additional **0.25%**.

Account Terms—

## Certificates of Deposit Accounts

**VARIABLE RATE**—The dividend rates will not change over the term of the certificate. Rates in effect for new certificates may change from time to time.

**DIVIDEND CALCULATION**—Dividends are calculated by the Daily Balance Method, which applies a daily periodic rate to the principal each day.

**DIVIDEND ACCRUAL**—Dividends begin to accrue on the business day you make the deposit to the account.

**COMPOUNDING AND CREDITING**—Dividends are compounded and credited monthly and at maturity. The annual percentage yield (APY) is quoted based on the assumption that dividends remain in the account until maturity; a withdrawal will reduce earnings. However, dividends already credited to the account may be withdrawn at any time. Dividends are paid from current income and available earnings.

**RENEWAL**—All certificates are renewable at the terms in effect at maturity unless otherwise disclosed when the certificate is issued. A pre-maturity notification will be delivered 30 days in advance of maturity.

**EARLY WITHDRAWAL PENALTIES**—Withdrawals of principal prior to maturity are subject to a penalty equal to 90 days of dividends for terms under 12 months or 180 days of dividends for terms of 12 months or longer. If dividends have already been paid, the penalty will be deducted from principal.

**NONTRANSFERABLE/NONNEGOTIABLE**—Your account is nontransferable and nonnegotiable. The funds in your account may not be pledged to secure any obligation of an owner, except obligations with the credit union.
