

LIVE UPDATES CHEAT SHEET

You can now receive updates on maintenance & improvements to the banking app

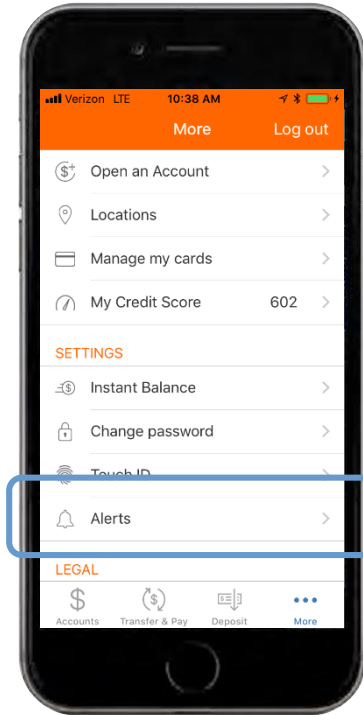

How to enable Live Updates

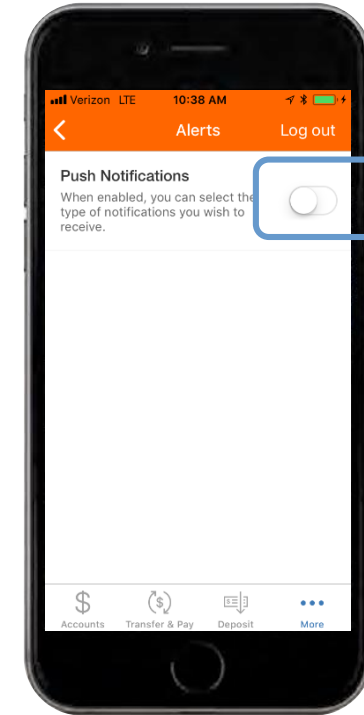

Log in using your User ID and password, or your biometric login.

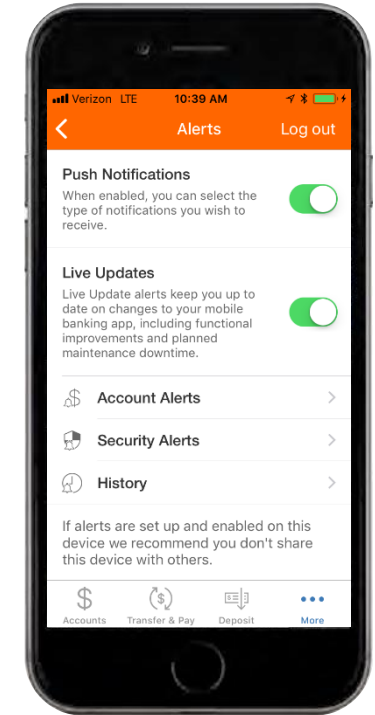

After logging in, you will see your account overview page. Tap on the **“More”** button at the bottom of the screen.

Under settings, tap on the **“Alerts”** button.

Toggle on the switch to enable push notifications.

After toggling on push notifications, Live Updates will automatically appear toggled on. You will now receive push notifications on changes to the app, including functional improvements and planned maintenance downtimes.
