

# Mobile Registration Disclosure

Registration Disclosure will be displayed when required on your first login. Disclosure acceptance is required to proceed.

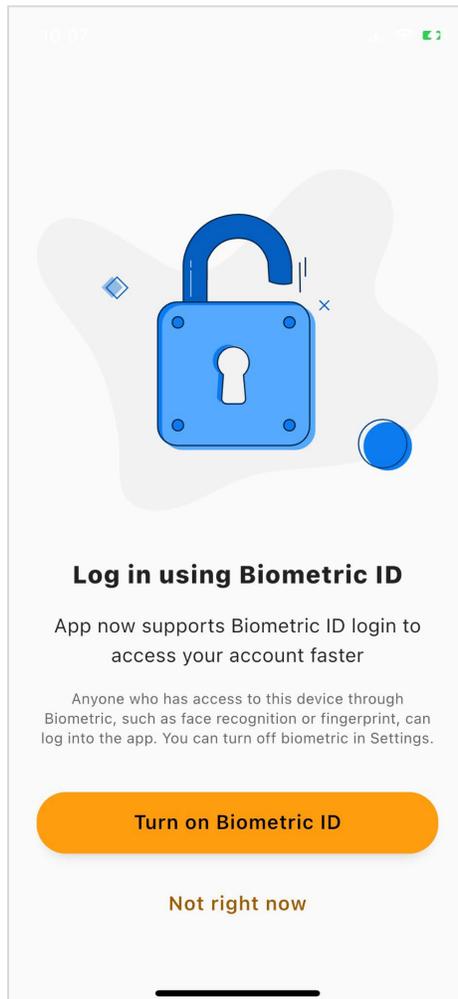

*Mobile Registration Disclosure*

---

## Biometric Enrollment

After logging in for the first time, you will be prompted with the *Biometric Authentication Enrollment* screen to enable biometric authentication. If you tap **Log in using Biometric ID**, you enable biometric authentication. If you tap **Not right now**, you will have the option to turn it on later.

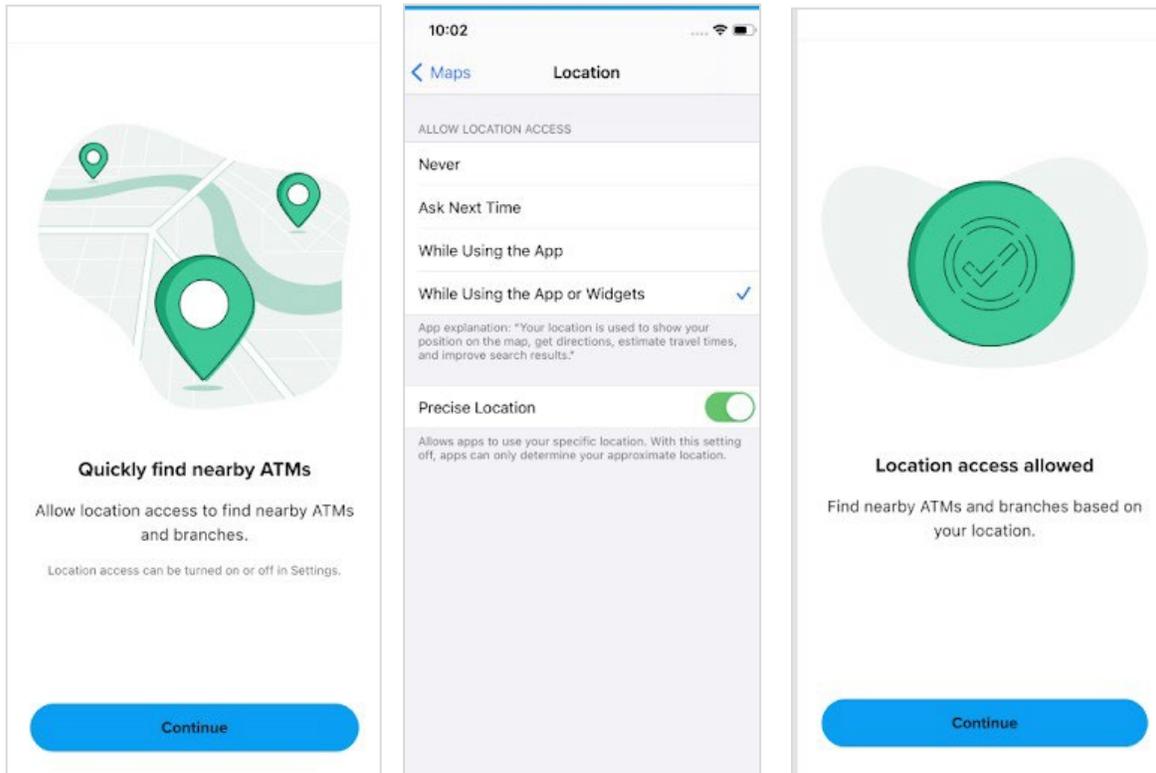

*Log in using Face ID screen*

---

---

## Location Onboarding

You will be presented with a screen explaining why the app needs access to their device's location permissions. When you tap **Continue**, you will be prompted to grant the app access to their device's location.

iOS Onboarding - Location Permissions

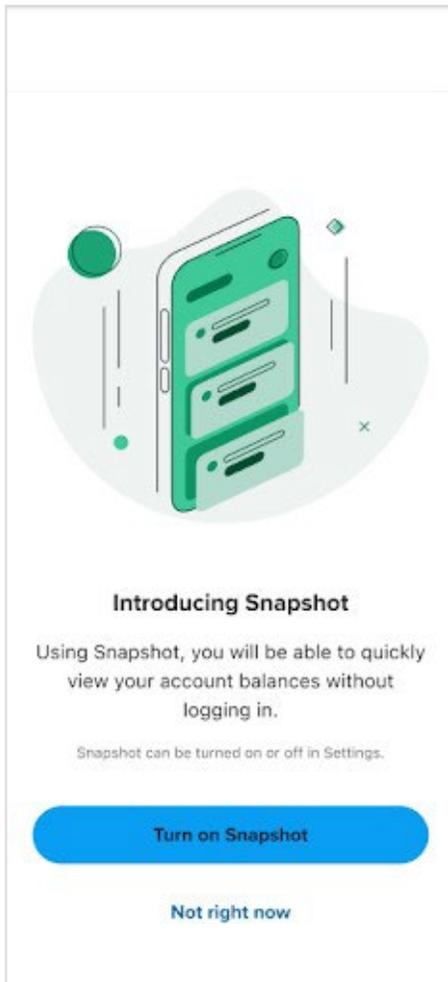

---

## Snapshot Onboarding

You will be presented with the *Snapshot Onboarding* screen after their first login to the mobile app.

- Tapping **Maybe Later** will dismiss the *Snapshot Onboarding* screen. If you choose not to turn on *Snapshot* during the onboarding, you can go to the app Settings to turn on *Snapshot* at any time.
- Tapping **Turn On Snapshot** will tell you *Snapshot* has been turned on.

## Digital ID

Upon your **second log in**, end users will be presented with the *Digital ID* onboarding screen.

- *Digital ID* onboarding is displayed upon second login to ensure you have already seen the other onboarding screens (Snapshot, Biometric, Locations). Tapping **Remind me later** will dismiss the onboarding screen and will display again after 5 logins.
